BREAKDOWN

CREATING SCORING OPPORTUNITIES

(WITHOUT THE PUCK)

ICE HOCKEY SYSTEMS
SKILLS
BREAKDOWN

KEY POINTS

1. **Head Up**

Keep your head up! Be aware of where the puck is and what your surroundings are.

2. **Scan Ice**

Don't just stare at the puck. Look around and scan the ice. Scanning the ice allows you to see where everyone is and where the open ice is.

3. **Go To Space**

Jump to the open space quickly or with deception so that the defence can not easily follow you.

4. **Communicate**

Use verbal and non-verbal communication with your teammates so they know where you are and where you are going!

IN FRONT OF THE NET
BEHIND TWO OILERS PLAYERS**

SN

A wide-angle shot of an NHL game in progress. The scene is set in the offensive zone, specifically in the slot area. A player in a dark blue jersey with the number 51 is positioned in the center, facing away from the camera. A red arrow points directly at him. To his left, a player in a white jersey with the number 32 is seen from behind, skating towards the goal. The goal is in the lower-left foreground, with a goalie in a white jersey partially visible. Several other players are scattered across the ice. The boards around the rink feature various advertisements, including "PS4", "SMIRNOFF", and "pizza pizza". The arena is filled with spectators in the background.
